- Filled with color illustrations to enhance the learning experience for all children.

These lesson plans specify particular content material, include strategies to broaden your understanding of, and deepen the relationship with each child in your care.

The most essential part of curriculum and lesson planning, of course, is the attention paid to the context for learning. You'll find everything you need; we've done the work for you!

We've also given you the opportunity to use your creativity in customizing the right lessons and activities for individual or group needs.
